

Return to Original Innocence

alchemical integration of the higher self

(3-days)

The Return to Original Innocence is a profound journey of spiritual attainment that allows you to clear earthly ego allurements and cosmic karmic patterning and integrate every aspect of your consciousness, at all dimensional levels back to source. You will also integrate all aspects of yourself at every level from the **past, present** and **future**, entering the infinite now. This process is the literal expansion of your consciousness. As we connect to and integrate (re-member) more pieces of the multi dimensional holographic jigsaw that we are, we access more of the knowledge, skills and wisdom of the universe.

This beautiful three day program is presented in twelve accessible guided visualizations, utilizing familiar magical images and archetypes. However, advanced quantum physics is at work beneath the surface. You will be exposed to fine but powerful light frequencies (rays) that enable and activate the complex and intricate re-building of your sacred geometric light scaffolding. These are the axiatonal lines which connect all the parts of your consciousness at various dimensional levels. Each ray is an instrument in the symphony of the universe, a creative vibrational note of sound, color and light. Together they form the white light of all that is. Each ray brings with it a particular energy signature that will burn through and dissolve anything that is not love, in the process of en-lighten-ment. Return to Original Innocence enables you to embody the qualities of these rays in your bodies, energy fields and holograms and re-activates your 12 strand DNA.

Each meditation will provide you with information about the planet, star or constellation your respective higher selves reside in. You will get a clear sense of the different energies of these places, in addition to the energy signatures and characteristics of the associated rays. These will be imprinted into your electromagnetic field as you recite magical invocations and affirmations. Powerful vibrational ray oils, applied specifically for each meditation, will further support your process.

Your Return to Original Innocence is completed during the final meditation in a prism of white light, where all twelve aspects of your higher self merge, creating the permanent integration of your mighty I AM presence.

You will then be taken to a sacred Prism of White Light, which holds the energy signatures of all twelve of your Higher Selves and the related rays.

You will be surrounded in a beautiful diamond ray, the Eighteenth Ray of Melchizedek Consciousness.

As you merge with your Christed Overself of the Light, the ray qualities of transcendence, unlimited potentiality, illumined truth, divinity, pure beingness, Melchizedek Consciousness, the infinite Now, formlessness, timelessness, completion of great work, unconditional Love, infinite expansiveness and great wisdom, Multi-Universal Service, and the experience of becoming the Cosmic Heart of Mother/Father God will be anchored and activated through your ninth dimensional portal, 24 feet above the crown chakra.

Through the merging with your twelve Higher Selves of the Light, you will experience the Cosmic Heart of Mother/Father God through the energy of your Christed Overself of the Light, your Mighty I Am Presence.

This is the Highest Light that you will ever be able to experience.
